

About HiberniaEvros

HiberniaEvros is an IT solutions and services company specialising in the design, supply, implementation and support of mission critical ICT infrastructure.

Offering the highest levels of service and technical expertise, backed by over 20 years of experience, Hibernia Evros keeps over 800 Irish organisations operating effectively.

By working closely with an extensive network of partners, our Professional Services group are able to design the best solution available to meet the needs of each particular customer.

Once implemented, our Managed Services group provide a range of technical support services to ensure your technology continues to support your business.

Working with Us

We have built our unrivalled reputation on offering the highest standards of service available in Ireland today. We have achieved this by following three simple rules in everything we do:

Being Technically Excellent

We strive to offer the best technologies implemented and supported by the best technical practitioners working in Ireland today.

Putting the Customer First

We take time to understand your business, so we can deliver a solution designed to suit you – not us!

Being easy to deal with

We won't waste your time with unnecessary red tape. Instead we offer a friendly, no nonsense service.

HiberniaEvros IT Resourcing is a strategic resourcing service dedicated to sourcing high calibre candidates for contract positions within the IT industry.

We have been recruiting IT specialists since 1988 and given our business-focused technical background and expertise with the leading technologies in use in Irish business today, we understand the type of resources you need.

Flexible Resourcing

We can provide skilled resources to cover all your requirements, including:

- Permanent placements
- Project or fixed term assignments
- Holiday / Maternity Cover
- Day to Day work flow fluctuations
- Emergency requirements

How it Works

HiberniaEvros has a team of recruitment and technical specialists who support all of our competency areas in the constant search for talent. Our team is continually meeting and interviewing people to ensure we have the best people available on our resourcing panel.

Once accepted, our resourcing panel automatically update their availability via our unique e-portal so we always know exactly who is available. We also use it to share information such as timesheets to ensure you get a truly streamlined service.

We offer a dedicated service that offers many advantages over traditional recruitment agencies:

Analysis of your requirements

We recognise that not all of our customers are able to define their exact requirement in terms of skill level and expertise to meet their need. Our experts will listen to what you need and will recommend the best type of candidate to target.

A pool of pre-vetted resources that are:

- Chosen using the same high standards we apply to our permanent staff including full reference checks and certification/qualification verification
- Personally interviewed by at least two senior members of the HiberniaEvros team
- Tested in their specialist area by technical peers

Full account management services

Once we have found the resource for you, we don't just forget all about it! We will perform close monitoring of an individual's performance and will be in touch regularly to ensure your expectations are being met.

A Replacement Guarantee

In the unlikely event that an individual fails to perform to the high standard we would expect, we will provide a replacement (subject to your full approval) that will be of at least equivalent experience and skill level

A service tailored to meet your requirements

Once we have worked with you and fully understood your business, preferences and other operational requirements we don't forget. We use this knowledge to ensure we can provide an even better service next time around.

Available Skills

Our talent pool currently includes these skills, but is continually expanding

Helpdesk Engineers System Administrators
 Infrastructure Consultants Project Managers
 Test Engineers Oracle DBAs
 Oracle / Microsoft E-Business Suite Consultants
 .NET developers Oracle Developers
 SQL DBAs
 Java Developers

If you have a particular requirement that is not represented here, get in touch as we are always searching for the right calibre of consultant across all skills.

Our Customers

We have provided staff for a wide range of Irish clients including:
